

Learning Together: Working as One

Aspire; Believe; Succeed; Excel

Summer A - Flowers and Insects

Summer B - Chocolate, Sweets and all things nice!

Class 2: Summer Term 2018

Values, PSHE & RE Topics

The Values we will be focusing on are perseverance and courage.
Our PSHE will focus on self and community followed by managing change.
In RE the children will be learning about Sikhism.
Computing will continue to be taught independently and through cross curricular links.
PE will be on Mondays and Tuesdays (POSH)

More about our topics...

Flowers and insects

- Among other things we will be finding out
- About plant and animal life cycles
 - Where plants and insects prefer to grow
 - What plants need to grow
 - About tessellation and symmetry
 - About food chains
 - About the work of Georgia O'Keeffe and Vincente Van Gogh

Our Role Play will feature a Mini Beast Investigation Lab!

Chocolate, sweets and all things nice!

- Look out for our topic on **Sweets and chocolate** after half term.
Among other things we will be finding out
- About the foods that make a healthy diet
 - How exercise affects our bodies
 - How to make sweet treats
 - About the work of John Cadbury
 - Where chocolate comes from

Our Role Play will feature a sweet shop!

English

We will be working hard to improve our use of grammar and punctuation whilst writing for different purposes. We will continue to develop our spelling using the Read Write Inc Programme.

Adventure stories

We will be listening to lots of different adventure stories and then writing some of our own.

Explanation Texts

We will be learning to write explanation texts based on life cycles and food chains to link with our Science work. We will learn how to use headings, sub headings and diagrams with labels or captions.

Poetry

We will continue to enjoy a variety of poems and learn to recite our favourites.

In Summer B we will be listening to Charlie and the Chocolate Factory by Roald Dahl.

Don't Forget-

Reading for pleasure and enjoyment will continue to lie at the heart of our English curriculum. **One of the most important things you can do to help your child is to hear them read regularly and talk to them about what they read.**

Authors of the Month
Jeanne Willis/Vivian French
Roald Dahl

Maths

Maths will be taught as an individual subject and will be based on Y1/2 curriculum objectives.
Links with our Topics will be made when possible so we will be looking at tessellation when we investigate bees and handling money when working in the role play shop!
Please help your child with Maths core tasks- Counting forwards and backwards/counting in 2s/3s/5s/10s and learning number bonds.
We have found telling the time very tricky so it would be great if you could help your child to tell the time at points throughout the day.

Take home task to support work in school.

After Easter everyone in Class 2 will be given a seed and a pot. Please plant the seed at home and look after it so that it grows. Decorate the pot and keep a diary showing the plant growth.
Bring to school to share. **Please hand in on or before Monday June 4th**

Look out for:

May 14th - Ugly Bug Ball: Open session to share our learning
July 4th - Class 1 and 2 Trip to Bewilderwood
