

8th February 2019

Dear Parent

Hawks' Marvellous Maths Morning
Friday 1st March 2019: 9:15 - 10:45 am

I sincerely apologise for the cancellation of this event last half term and would again like to warmly invite you to our Marvellous Maths Morning. The morning will be split into two parts. The first part of the session will demonstrate how we teach written methods of calculation to your children but there is also an opportunity to tailor the session to address any queries you may have (please share on the slip below).

The second part of the session will provide an opportunity for you to work alongside your child whereby they will be able to demonstrate these strategies and share the resources that they find most helpful. We will also play some of their favourite warm-up games which are easily adaptable for you to play at home.

I really hope you will be able to join us.

Yours sincerely

Naomi Fitzpatrick
Hawks Class Teacher
