

Learning Together: Working as One

Aspire; Believe; Succeed; Excel

Robins Class

Time Travellers

Spring Term 2018

Values & RE Topic

The Values we will be focusing on are Humility and Faith.
In RE the children will be learning about stories from the Old Testament including the story of Creation

Computing & PE:

Computing will continue to be taught independently and through cross curricular links.

PE will be on Tuesdays (POSH) and Wednesdays

More about our topic

Time Travellers

This should be a really fun topic with lots to learn, create and explore.
Among other things we will be finding out:

- About The Great Fire of London
- About the life of Octavia Hill
- How different materials are used now and in the past
- What it was like to go to school in Victorian times
- How to use co-ordinates
- The difference between our toys and those of Victorian children
- About the life of Florence Nightingale

Our Role Play will feature an archaeological dig and then a Victorian School which should be exciting!

Look out for:

Maths Open session - Thursday 7th February

Topic Open session - Thursday 21st March

English

We will be working hard to improve our use of grammar and punctuation and develop our spelling using the Read Write Inc. Programme.

Creation Stories

We will be listening to different versions of the Creation Story.

Personal recounts

We will be writing recounts of our own experiences as well as writing diaries and letters linked to our Topic work.

Traditional Poems

We will enjoy a variety of traditional poems including 'The Owl and the Pussy Cat' and will be writing our own versions of well-known nursery rhymes.

Don't Forget-

Reading for pleasure and enjoyment will continue to lie at the heart of our English curriculum.

We encourage all children to read widely at home to develop imagination and open doors to the magic of reading. There will continue to be stars given out for home reading!

Authors of the Month

Nick Butterworth

Oliver Jeffers

Maths

Maths will be taught as an individual subject and will be based on Y1/2 curriculum objectives.

Links with our Topics will be made when possible so we will be measuring capacity when looking at water to quench a fire and measuring length when looking at dinosaur bones!

Please help your child with Maths core tasks- Counting forwards and backwards to 100/counting in 2s/3s/5s/10s and learning number bonds.

Take home task to support work in school.

Make your own Tudor house!

Use a box to make a house like the ones that were burnt down during the Great Fire of London. You could even add some flames.

Bring to school to share by Monday 25th February
